# Int 21H, AH=23H

## Version

1 and higher

## Brief

GET FILE SIZE FOR FCB

## Family API

## Input

```
AH = 23h
DS:DX -> unopened FCB (see #01345), wildcards not allowed
```

## Return

AL = status

```
00h successful (matching file found)
      FCB random record field filled with size in records, rounded
up
      to next full record
FFh failed (no matching file found)
```

## Notes

```
not supported by MS Windows 3.0 DOSX.EXE DOS extender
      MS-DOS returns nonsense if the FCB record number field is set to a
very
```

large positive number, and status FFh if negative; DR DOS returns the correct file size in both cases

BUG: APPEND for DOS 3.3+ corrupts DX if the file is not found

## See also

AH=42h
